

PROGRESS UPDATE | OCTOBER 18, 2025 |

SPRINT 3

SPRINT 3 (3/3) = 100%

PROJECT PERCENTAGE COMPLITON (9/37) * 100 = 24%

SPRINT 3 – This sprint focuses on the finalization of the User Interface and also the wire framing for developing it in front end, We also manage to bought a domain in hostinger.

What went well: We managed to complete all the ask in Sprint 3 and also bought the domain.

What could be improved: I think the communication with us, because when there's a pull request the person who request a pr is messaging a specific person privately and not informing us

What needs to be done: Prepare for our next sprint
