# PROGRESS UPDATE | December 27, 2025 | SPRINT 13

SPRINT 13 (0/1) * 100 = 0%

PROJECT COMPLETION (36/37) * 100 = 97%

SPRINT 13 – Focuses on bug fixing and also refinements of the user interface and also making the system design consistent to other pages.

What went well: We finish all the functionalities of the system, also implement all the external API, clean the database for optimizing the performance of the database

What could be improved: The user interface and the consistency of each form, we are still refining the User interface.

What needs to be done: Find all the bugs and make all the component design consistent to each other.
